LEADERSHIP
SUMMIT

NSELA

the Curtis Hotel
1405 Curtis Street
Denver, Colorado

**Elevating All Students in
Science: Reaching New
Heights for Equity and
Instruction**

OUR MISSION: FOCUSED ON SCIENCE LEADERSHIP

NSELA catalyzes leadership to maximize effective science teaching and learning in a complex and changing environment. We connect and support emerging and experienced leaders by providing high-quality professional learning opportunities, a collegial network, access to research and resources, and a voice for leaders in science education.

BENEFITS OF THE SUMMIT

-  AMAZING PROFESSIONAL LEARNING
-  NETWORK WITH NATIONAL SCIENCE LEADERS
-  LEARN HOW OUR PARTNERS CAN HELP

MARCH 20, 2024
From 8:00AM - 4:00PM

A FULL DAY OF PROFESSIONAL LEARNING

Many science leaders nationwide are in different phases of implementing science standards linked to the *Framework for K-12 Science Education*. An important component of standards derived from the *Framework* is to ensure equitable access to science for all students.

NSELA will provide a full-day professional learning opportunity focused on equity and instruction in science education. Participants will be able to choose from a variety of sessions that will focus on the following topics:

- Implementing *Framework* standards through the lens of high-quality instructional materials and assessments
- Supporting science for all with a focus on equity, inclusion, and elementary science
- Providing resources for science leaders to support their teachers through professional learning and developing collaborative systems
